Elementary and advanced statistical methods will be discussed. Statistical software will be used to analyze and interpret large databases occurring in real life situations.
Organizational Leadership in Administration and Supervision and its relationship to the The Conceptual Framework

The conceptual framework for the advanced level educational leadership program is based on the framework established in a collaborative partner with the professional education unit. The outcomes of the program have been aligned with the unit outcomes to support the development of competent, caring, effective and reflective professional administrators who are committed as leaders to addressing the challenges of educating all students for multicultural and global learning communities. As competent leaders, the candidate will understand the central knowledge, concepts and skills necessary in the administrative field. As caring leaders, the educational leadership candidate will show respect for all stakeholders in the educational setting and empower them to set achievable goals while maintaining high standards. As effective leaders, the candidate will use research-based instructional methods and best practice and performance assessments to guide the implementation of the instructional process. Finally, as reflective leaders, they will step back from themselves and the situation to examine all aspects of the teaching/learning/administrative process, including essential dispositions to create a positive school culture and learning environment.

To ensure the development of the necessary knowledge, skills and disposition to meet the goals of the conceptual framework, assessment documents have been developed to allow the program to collect data on candidate performance and the analysis of the data leads to program improvement.
